

# Jayoung\*

GKS

## Greeting

Established GKS Jayoung LC in Korea in 2016.

As a wildflower in Korea, it is a wild flower that grows in mountains deep in Gangwon-do.

Perfect for sensitive skin, this brand is a favorite of the Royal Family.

Inspired by nature, GKS jayoung's unique design features and value for its products

We are working on projects with global companies such as duty free shops in Indonesia, the United States, China and South Korea.

As a global company, especially to increase the value of our brand and to sublimate Korea's beautiful nature into design, We are making efforts to make world-class products based on the constant research and testing with several doctors of KIST.

GKS jayoung LC launched a new cosmetics field in 2016 with the intention of "making beautiful women more beautiful" and Korea's technology and quality have been recognized in the world to release gentle and soft products without skin irritation based on anti-aging.

Women around the world prefer to be more natural skin beauty than various color cosmetics. A woman with transparent skin and crystal clean skin is truly a beautiful woman. We will grow into a responsible cosmetic brand that will satisfy all women's desires for beauty. GKS jayoung promises to make the best products in the world.
